

EX PARTE

Ms. Marlene H. Dortch
Secretary
Federal Communications Commission
445 12th Street, S.W.
Washington, D.C. 20554

Re: In the Matter of Development of Nationwide broadband Data to evaluate reasonable and timely deployment of advanced services to all Americans, WC-07-38.

Dear Ms. Dortch:

On February 19, 2008, James Stegeman and I spoke with Commissioner Adlestein and Scott Bergman. The purpose of this meeting was to discuss broadband mapping and cost analysis.

CostQuest Associates proposes the use of a granular geographic basis for mapping and deployment cost analysis as part of any broadband mapping effort and to assist with the development of nationwide broadband data.

CostQuest presented and left documents related to this discussion. Those documents are attached hereto.

Please feel free to contact me if you have questions.

Sincerely,

Mike Wilson
CostQuest Associates
